PROFESSIONAL SUMMARY

Freelance Web Developer and Magna Cum Laude Computer Technology graduate experienced in developing and deploying PHP/MySQL web systems and Flutter/Firebase Android applications. Seeking a Junior Developer role to contribute technical and problem-solving skills.

PROFESSIONAL EXPERIENCE

Freelance Web and Mobile Developer | Sole Developer, Commissioned Projects Dec 2025 - Sep 2026

DraftFun Mobile Application | Flutter, Dart, Firebase Sep 2026

- Developed a four-chapter Flutter Android app with interactive drawing activities, enabling students to practice isometric and orthographic visualization.
- Integrated Firebase authentication, progress tracking, leaderboards, and audio features; optimized responsive layouts to support personalized learning across Android devices.

MicroLesson Generator | PHP, MySQL, JavaScript, AJAX Jan 2026

- Developed a PHP/MySQL e-learning platform with student and instructor portals, enabling course, micro-lesson, and quiz management alongside learner progress tracking.
- Implemented database-backed authentication and quiz-based lesson progression, unlocking subsequent lessons when students meet the required passing score.

Barangay Ilaya Alabang Health Center System | PHP, MySQL, JavaScript Dec 2025

- Built a PHP/MySQL healthcare system with patient records, consultation requests, and staff/admin modules, enabling centralized patient information and consultation tracking.
- Deployed the commissioned system to live hosting and configured its MySQL database, making the web application accessible online.

Powernet Edge Solutions Corp. | Post-Sales Trainee Intern Jan - Apr 2026

- Assisted with router, switch, and access point configuration and on-site network maintenance, supporting deployment and troubleshooting activities.
- Prepared as-built documentation, VLAN/port mappings, and inventory records to provide the team with updated site and equipment information.

EDUCATION

Bulacan State University - Bustos Campus 2022 - 2026

Bachelor of Industrial Technology, major in Computer Technology

- **Honors and Awards**: Magna Cum Laude | Best in Computer Technology.
- Developed a real-time Filipino Sign Language gesture-to-speech system using Python, Raspberry Pi, MediaPipe, and TensorFlow Lite; received Best in Research Paper.

CERTIFICATIONS AND ELIGIBILITY

CSC Honor Graduate Eligibility Sep 2026

TESDA Computer Systems Servicing NC II Mar 2025

Cisco Networking Academy: **Computer Networking** (May 2025), **Python Essentials 1** (Oct 2024)

TECHNICAL SKILLS

Web Development: HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, AJAX

Mobile, Backend and Databases: Flutter, Dart, PHP, MySQL, Firebase Authentication, Cloud Firestore

Other Technical Skills: Git, Python, Raspberry Pi, MediaPipe, TensorFlow Lite, Computer Networking
