PROFESSIONAL SUMMARY

Computer Technology graduate with Magna Cum Laude honors and freelance experience developing web and Android applications. Built learning and healthcare systems using PHP and MySQL, and an interactive learning app using Flutter and Firebase. Seeking a junior developer role to contribute practical application development and problem-solving skills.

TECHNICAL SKILLS

Web Development: PHP, HTML, CSS, JavaScript, AJAX
Mobile and Databases: Flutter, Dart, MySQL, Firebase Authentication, Cloud Firestore
Other Relevant Coursework: Python, Raspberry Pi, Arduino, ESP, Java, C++, Computer Networking, Technical Documentation

---

FREELANCE EXPERIENCE

Paid project commissions in web and mobile application development.

DraftFun Mobile Application September 2026
Technologies: Flutter, Dart, Firebase Authentication, Cloud Firestore

- Developed an Android learning application for drawing students, with four chapters covering lessons and interactive activities on isometric and orthographic concepts.
- Implemented account access, progress tracking, a leaderboard, audio narration, and configurable sound settings.
- Adapted layouts for different Android screen sizes and built and tested the APK on an emulator and a physical device.

MicroLesson Generator (E-Learning Platform) January 2026
Technologies: PHP, MySQL, HTML, CSS, JavaScript, AJAX

- Developed an e-learning platform featuring adaptive micro-lessons and quiz management.
- Built instructor and student portals for course and lesson management, quiz activities, and learner progress tracking.
- Designed relational databases and implemented secure authentication and content management features.

Barangay Ilaya Alabang Health Center December 2025
Technologies: PHP, MySQL, HTML, CSS, JavaScript

- Developed a commissioned academic web application for patient records and consultation tracking.
- Designed the MySQL database and built responsive interfaces and administrative modules for managing patient information.
- Deployed the application to live hosting, configured the MySQL database, and resolved deployment issues during the project's implementation period.

INTERNSHIP EXPERIENCE

Powernet Edge Solutions Corp. | Makati Jan 2026 - Mar 2026
Intern

- Attended configuration and on-site deployment activities, developing an understanding of system setup, maintenance, and operational procedures.
- Provided support for routine activities, helping streamline processes and enhance overall team productivity.

EDUCATION AND AWARDS

Bulacan State University | Bustos Campus 2022 -2026
Bachelor of Industrial Technology major in Computer Technology

Magna Cum Laude

- **Best in Research Paper -** Bridging the Communication Gap: Developing A Real-Time System for Translating Basic Filipino Sign Language Gesture into Text-To-Speech

ACADEMIC PROJECTS

Filipino Sign Language Text to Speech Translation System
Technologies: Python, Raspberry Pi, MediaPipe, TensorFlow Lite

- Developed a real-time gesture recognition system that translates basic Filipino Sign Language into text and speech.

CIVIL SERVICE ELIGIBILITY

Honor Graduate Eligibility (HGE) – Presidential Decree No. 907
Civil Service Commission (CSC) | Issued September 22, 2026

CERTIFICATIONS AND TRAINING

TESDA
National Certificate II in Computer Systems Servicing March 2025

TESDA Online
Introduction to Visual Graphics Design June 2025

Cisco Networking Academy
Computer Networking Basics May 2025
Python Essentials 1 October 2024

Simple Learn, Skill Up - Software Development
Web Development for Beginners September 2025
Introduction to HTML October 2025

Programmable Logic Controller (PLC) Seminar | Bustos Campus January 2025
Computer Servicing Training | Plaridel, Bulacan Oct - Dec 2024
